## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. The following is an examiner's statement of reasons for allowance:

The first prior art of record discloses the use and structure of a digital certificate. The second prior art of record discloses the classification of different types of security-related operations and services, which might potentially be performed by externally-provided code, into different categories. The third prior art of record discloses a system for securely using digital signatures in a commercial cryptographic system that allows industry-wide security policy and authorization information to be encoded into the signatures and certificates by employing credential attribute certificates to enforce policy and authorization requirements. The prior art of record individually or in combination does not explicitly disclose a digital certificate embodied on a computer readable medium executable on a computing system, the certificate comprising: a credential attribute function associated with a credential attribute property, which credential attribute property can have a plurality of values, which credential attribute function is embedded in the digital certificate as an executable program file, in which the credential attribute function can determine the value of the credential attribute property at least partly when the executable program file is executed. Therefore claims 1-22 is allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Terminal Disclaimer***

2. The terminal disclaimer filed on 09/08/2006 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of any Patent

Art Unit: 2132

granted on Application Number 10075380 has been reviewed and is accepted. The terminal disclaimer has been recorded.
